WHO WE ARE

PT Altisan Jaya Sinergi (AJS) is an Indonesian fish commodity trading and supply company connecting local fishery sources with domestic and international market demand.

We focus on sourcing, trading, handling and supplying fishery commodities based on product availability, customer specifications and order requirements.

By Availability / Order

MARKET
**Domestic &
International**

OUR POSITION

Connecting reliable local supply with market demand.

OUR BUSINESS EVOLUTION

AJS was established in 2022 with an initial focus on the construction sector.

As market opportunities evolved, the company expanded into fish commodity trading and supply, leveraging access to local fishery markets and supply networks.

Today, AJS is focused on developing a reliable and flexible fish commodity supply business serving domestic customers and developing international market opportunities.

OUR JOURNEY

WHAT WE DO

AJS operates across the fish commodity supply chain — from sourcing at the origin to delivery to customers.

01

SOURCE

Access fishery commodities through local sourcing networks.

02

PROCURE

Match available commodities with customer specifications and order requirements.

03

SORT & WEIGH

Inspect, sort and weigh commodities before shipment.

04

STORE

Utilize leased and partnership cold-storage facilities to support inventory management.

05

DISTRIBUTE

Coordinate refrigerated transportation and delivery.

06

SUPPLY

Connect available fishery commodities with domestic and international buyers.

OUR SUPPLY CHAIN

SOURCE

PROCURE

HANDLE

STORE

DISTRIBUTE

CUSTOMER

From local sources to market demand.

OUR CORE COMMODITIES

AJS supplies a range of fishery commodities based on market demand, product availability and customer requirements.

FLEXIBLE PRODUCT SOURCING

Beyond our priority commodities, AJS can source other fishery products according to:

Species

Size

Grade

Form

Quantity

Availability

PRIORITY COMMODITIES

CAKALANG
Skipjack Tuna

DEHO

TUNA FILLET

DORI FILLET

KERAPU
Grouper

KAKATUA
Parrotfish

SOURCING CAPACITY:

Up to 5-15 MT (Metric Tons) / Day
based on demand.

Product specifications and availability
are subject to sourcing conditions and
customer requirements.

OUR SOURCING NETWORK

MUARA BARU — JAKARTA

Muara Baru is one of AJS's key sourcing and operational locations, providing direct access to a dynamic fishery commodity trading environment.

Our local sourcing network enables us to identify available commodities and respond to customer requirements with flexibility.

OUR SOURCING STRENGTHS

LOCAL MARKET ACCESS

Access to one of Jakarta's major fishery trading hubs.

MULTI-COMMODITY SOURCING

Ability to source various fish species and product categories.

FLEXIBLE PROCUREMENT

Procurement based on availability, specifications and customer orders.

MARKET RESPONSIVENESS

Ability to respond to changing supply and market conditions.

DIRECT ACCESS TO FISHERMEN AND COLLECTORS NETWORK IN THE REGIONS

(ACEH, NATUNA, HALMAHERA, AND DOBO)

AJS has direct access to fishermen and collectors networks in the regions (Aceh, Natuna, Halmahera, and Dobo), ensuring a wider variety of fish supply, more consistent availability, and stronger competitiveness.

AJS HAS DIRECT ACCESS TO FISHERMEN AND COLLECTORS NETWORK IN THE REGIONS

ACEH

Direct access to local fishermen for various marine commodities.

NATUNA

High-quality fish supply from productive fishing waters.

HALMAHERA

Access to high-value fish commodities from Eastern Indonesia.

DOBO

Network of fishermen and collectors for daily fish supply.

ACEH

NATUNA

HALMAHERA

DOBO

Wider range of supply, more consistent availability, stronger competitiveness.

TOTAL NETWORK ACCESS

UP TO ±300 MT

Flexible storage access supporting our trading and supply operations.

Capacity represents combined access through leased and partnership facilities and is subject to operational availability.

FROM SOURCE TO DELIVERY

01

SOURCING

Identify and procure available fishery commodities.

02

INSPECTION

Check product condition, species, size and order specifications.

03

SORTING & WEIGHING

Sort and weigh products according to customer requirements.

04

PACKING & HANDLING

Prepare products for storage and transportation.

05

COLD STORAGE

Maintain inventory through available cold-chain facilities.

06

REFRIGERATED DELIVERY

Coordinate temperature-controlled transportation to customers.
